Florida Jet Center Appoints Dave Molsberry Avionics Department Manager

Fort Lauderdale, Florida – Florida Jet Center announced today the appointment of Dave Molsberry as Avionics Manager. In his new role for Florida Jet, Molsberry will be responsible for day-to-day operation and management of the avionics department. He will be the primary customer contact, and he will oversee growth and development of the department, which currently focuses on Learjets. Ultimately Florida Jet plans to offer avionics service for all corporate jet models.

Molsberry's previous experience most recently includes 16 years with Duncan Aviation, where he was the Western Regional Marketing Representative for Component Services. Molsberry also served as Avionics Satellite Manager for the Fort Lauderdale, Florida; Santa Ana, California and Denver, Colorado locations.

"We are excited to have Dave Molsberry bring his extensive knowledge to our team," said Terry Robertson, President of Florida Jet Center. "He is well known and highly respected in the industry, and I know he will offer our customers the same quality, customer-oriented service that they already expect from Florida Jet."

Molsberry studied electronics at Richland Junior College in Dallas, TX and has over 20 years experience in aircraft avionics. He will be relocating from Lincoln, Nebraska to Fort Lauderdale, Florida to take the position at Florida Jet Center starting January 28, 2008.

About Florida Jet:

Florida Jet Center, established in 1986, is one of the finest aircraft maintenance facilities in the United States.
