Florida Jet Expands Charter Fleet with Eurocopter Purchase

Fort Lauderdale, Florida (May 18, 2006) – Florida Jet Service, a premier aircraft charter provider, announced today the expansion of their charter fleet with the addition of a new Eurocopter EC 130B4. Florida Jet's Eurocopter has executive appointments, luxury seating for six and is the first corporate helicopter for charter in South Florida.

With a range of 280 statute miles and an endurance of two hours, the Eurocopter is ideal for short flights, sightseeing, surveying properties and even golf course drop-offs. It expands the capabilities of Florida Jet's fleet, which previously consisted of only fixed-wing aircraft.

"We saw a need for helicopter service in South Florida," stated Terry Robertson, President of Florida Jet. "It rounds out our fleet. Now customers can call us for the specific abilities that a helicopter can provide, as well as national and international flights on our jets."

About Florida Jet

Florida Jet Service, established in 1986, is one of the world's finest jet and helicopter charter services. Located at Fort Lauderdale's renowned Executive Airport, Florida Jet Service serves North, South and Central America; Bermuda; the Caribbean; Europe and Asia. Florida Jet Service's crews are among the best-trained in the business, and all aircraft are owned, operated and maintained by Florida Jet.

Florida Jet Service is one of three divisions that also include Florida Jet Center and Florida Jet Parts. Florida Jet Center provides aircraft maintenance, specializing in Learjets. Florida Jet Parts stocks over 12,000 quality Learjet parts. For more information about Florida Jet Service, visit www.floridajet.com.
